

Certiphi Screening is the background screening partner for the American Association of Colleges of Nursing

## OFFERING A FULL SUITE OF STUDENT SCREENING SERVICES FOR YOUR NURSING PROGRAM

### GET TO KNOW YOUR STUDENTS

Students in the healthcare realm learn the critical skills needed to care for others. Nursing schools play a vital role in ensuring students meet the highest standards of professionalism and character before entering clinical rotations. Proper screening helps uphold patient safety, maintain compliance with healthcare regulations, and ensure students satisfy clinical learning requirements.

At Certiphi, we understand and are uniquely qualified to conduct student screening because serving healthcare organizations is our sole focus. We have a thorough knowledge of the objectives, challenges and compliance issues involved because we developed and administer student criminal background check programs for hundreds of individual colleges and universities.

Certiphi also develops and administers programs for the following healthcare education associations:

Certiphi combines the knowledge, expertise and technology you need to **screen students thoroughly**, according to your criteria and personalized for your school's use.

### CERTIPHI'S BACKGROUND SCREENING SERVICES

Certiphi offers a full suite of background screening services, working with schools to provide a thorough examination of each student's background in compliance with all applicable state laws and regulations.

Thoroughness and accuracy count. All of the research we do is conducted directly with primary sources — we don't take shortcuts, outsource or use outdated databases.

The most common student screening elements include:

- Social Security Number Validation and Verification
- County Criminal Records Search
- Statewide Criminal Records Search
- Federal Criminal Records Search
- National Criminal Database Search
- National Sex Offender Registry Search
- OIG/EPLS Excluded Parties Search
- SanctionsScreen®

**AACN member schools can receive up to a 30% discount on Certiphi's suite of student screening services!**

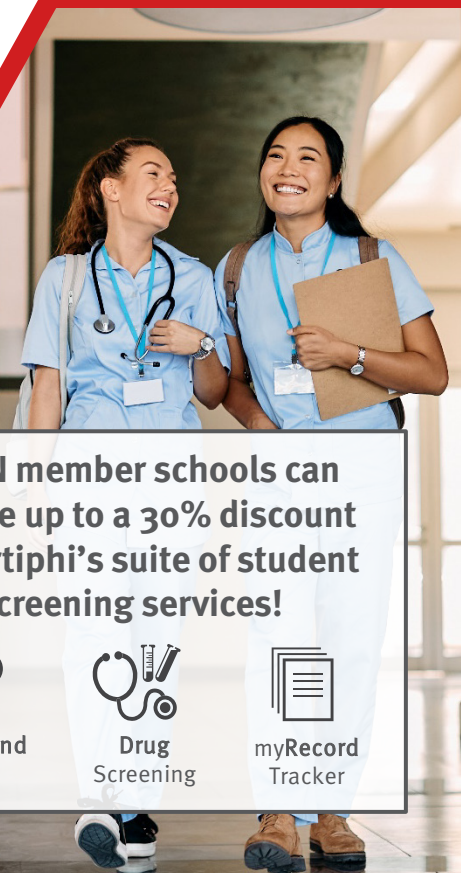

Background Checks

Drug Screening

myRecord Tracker

## ADDITIONAL SERVICE OFFERINGS TAILORED FOR NURSING SCHOOLS

Certiphi has decades of experience providing services tailored specifically for healthcare-focused schools and areas of study. Whether you need updated background checks for admissions or clinical rotations, drug screening services, or student record tracking, Certiphi can provide a customized package for your school's specific needs.

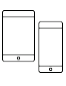

Tracking student immunization, documentation, and health record requirements can be a cumbersome task. Managing multiple classes, different experiential learning settings and variable requirements can be time-consuming and complex.

Certiphi's powerful **myRecordTracker** tool can help you simplify and streamline the entire process, from matriculation to graduation. Our expertise extends beyond technology — our full-time Medical Director is a licensed physician and oversees all aspects of the process, including providing an unmatched level of support and knowledge to our clients.

With **myRecordTracker**, each school or program of study has the ability to define specific requirements, including the ability to create a unique profile for each class, clinical setting or area of study. Student compliance, both on an individual basis and overall program level, is automatically tracked and simple dashboard views enable easy program management.

### Other features include:

-  Simple setup process using our intuitive profile-builder
-  Ability to upload custom documents and instructions
-  Automatic expiration date tracking
-  Easy Web-based access, including via smartphones and mobile devices
-  Secure management and sharing of records
-  Progressive reminders and email notifications

**FULL-SERVICE THIRD-PARTY ADMINISTRATOR  
OF STUDENT DRUG SCREENING SERVICES**

As a full-service third-party administrator (TPA) of occupational health screening services, Certiphi offers truly integrated, single-source drug testing programs. Every drug screening support service we provide — registration, chain of custody form management, medical reviews, result delivery, and more — is handled in-house by Certiphi professionals; we don't outsource these crucial steps.

At Certiphi, our commitment to quality is clear — We were one of the first ISO 9001:2015 Quality Management System-certified applicant screening firms. This certification means that our processes contain systematic controls to ensure your applicant screening program requirements are not only met, but exceeded through continual improvement. We hold URAC accreditation and NCQA certifications and are actively licensed as a private investigations firm in a number of states, in compliance with legal requirements and industry best practices.
